The Verizon Wireless call center in Bangor, the company's only northern New England facility, is hiring 20 more employees.

Human Resources Manager Jennifer Bouquot said more full-time customer service representatives are needed to meet growing demand, according to the *Bangor Daily News*. Six months ago, Verizon announced 40 job openings.

Verizon Wireless acquired the Bangor call center in 2008 with its purchase of telecom company Unicel and now employs 160 people.
